

**CITY OF BRAMPTON
CREDIT RIVER
SECONDARY PLAN
SUBWATERSHED MANAGEMENT
AND SERVICING STUDY**

The City of Brampton in conjunction with the Credit Valley Conservation is preparing a Subwatershed Management and Servicing Study for the Secondary Planning Study Area approximately bounded by Highway 7 (north), Chingaucousy Road (east), Steeles Avenue (south) and Mississauga Road (west).

The purpose of this study is to provide detailed information regarding requirements for servicing and urban development while ensuring that the flow characteristics and environmental conditions are protected in the watersheds. A management strategy will be developed that includes recommendations on land use, stormwater management and servicing requirements.

A public meeting is planned for June 18, 1998 at Eldorado Park. The meeting will start with a brief presentation on the purpose of the study and key items being investigated. Following that, an open discussion will be held regarding any concerns or information in the study area.

We look forward to hearing from landowners in the area on others that are interested in the future of this area.

Meeting Time: **7:00 pm. to 9:00 p.m.**
Date: **Thursday, June 18, 1998**
Place: **Eldorado Park meeting hall**
